SONAM CHOEJUR TSHERING

App Developer

My name is Sonam Choejur Tshering and I am from Bhutan. I am very passionate about building apps and programming in general. I have good knowledge on Deep Learning models.

Projects

2019 ● Senior Project 1
License Plate Recognition System using OpenALPR open source developed as a desktop application using ElectronJS (NodeJS)

2019 ● Senior Project 2
Employee Attendance Clock-In System using Deep Learning.
Face Recognition using FaceNet.
Developed for mobile platform for both iOS and Android using Flutter (Dart).

2020 ● DHI Tech Hackathon
Winner of 2020 DHI tech Hackathon for creating business model for Document Management System (DMS) using AI. Implementation of DMS.

Future Projects

Employee Clock-In Clock-Out System using Deep Neural Networks - Mobile App

Hyper-Personalization for Service Station (Project in progress) - Desktop App / Web App

Education

2015 ● High School
Pelkhil High School, Thimphu, Bhutan

2016-2020 ● Bachelors of Computer Science
Assumption University of Thailand
